

THE **BEST** PROTECTION FOR YOUR JOB SITE.

PERFORMANCE

- Hybrid CLT/composite design
- Interlocking design expands load capacity and keeps mats in place
- Extreme-grip traction surface
- Conforms easily to uneven terrain
- Proprietary waterproof protective barrier prevents mat contamination
- Temperature stable materials

ECONOMICS

- Repairable
- Lighter weight reduces trucking by 50% compared to traditional mats
- Fast, easy installation
- Prevents weather delays, equipment damage and work injuries
- Flexible pricing structure

SUSTAINABILITY

- Fully recyclable and reusable
- Made from renewable, local timber
- Lower carbon footprint than other composite and traditional mats

SAFER. STRONGER. SECURE.

SiteSeal combines the benefits of composite and wood mats to create a more advanced matting system. It outperforms other mats through its unique interlocking capabilities, extreme-grip traction surface, lighter weight, engineered durability, sustainable materials and faster, safer installs. If you want a mat that can reduce safety incidents while providing a stable, uniform foundation for the heaviest loads, SiteSeal is your answer. We offer flexible leasing and sales options, site planning, full-service installation and removal.
