

## Solids Control

You will not find a more capable team for your solids control provider. We work closely with operations to choose the most effective equipment for your operation and identify the optimal balance of fluid performance and solids control. Our field-proven and repeatable methods consistently shave significant time and money from our customers' drilling programs.

We constantly strive to decrease additives, lower dilution rates and reduce the volume of solid and liquid waste, while maximizing drilling efficiency to alleviate unnecessary costs. We offer the following fluid and waste stream management services:

- Dewatering
- Barite Recovery
- Drying Shakers
- Centrifuges
- Flow Line Screens
- Replacement Screen Panels
- Vertical Cuttings Dryers
- Mud Vacs
- Mud Conditioners and Additives
- Closed Loop Mud Systems
- Pit Treatment

## More Services

**Torque and Test:** our specialized teams are equipped with the highest caliber equipment and experience available to ensure quality service every time. We offer hydrostatic and pneumatic testing, hydraulic torquing and bolt-up, chemical injection, nipple up and down on BOPs, accumulator testing and repairs.

**Custom Fabrication:** our shop facilities have the manpower, equipment and expertise needed to custom fabricate anything made of metal. With our multiple locations and trucking capabilities we can deliver projects right to your door.

**Trucking:** we have invested in our own trucking infrastructure to support our rental fleet and location containment services. This allows us to control costs more effectively, better schedule our work, and provide reliable, complete service to our customers.

**Mobile Fueling:** we provide remote, on-site, off-road equipment refueling services around the clock for your convenience. We will travel anywhere our customers need us to go.

# About Us

## Who We Are

Diamond T Services provides equipment rental and support services to the oil and gas, utility and infrastructure industries. We have office locations throughout the US.

Our focus is to provide our customers with enhanced solutions that are more effective than the status quo. We are dedicated to being on the leading edge of industry technology and constantly improving field processes.

We are not satisfied with just getting the job done. We strive to do it better. We are more than just a service provider. We are a part of your team and understand that your success is our success.

## What We Do

- Equipment Rentals
- Rig and Access Matting
- Solids Control
- Roustabout Services
- Primary/Secondary Containment
- Torque and Testing
- Custom Fabrication
- Trucking and More

# Matting & Containment

Diamond T provides the most durable and complete location matting and containment services on the market today. Our SiteSeal™ (Pat. No. 9,422,688) matting system has proven to be the best combination of performance, economics and sustainability available. We have a team of certified containment professionals that will consult with your team to design a custom solution for your project. We offer a variety of liner and berm options to fit your needs.

# Available Equipment

### Light Towers

- Electric or diesel
- LED or halogen
- Low emission units
- Towable or skidmounted
- Various kW options
- Environmentally friendly

### Construction and Material Handling Equipment

- Loaders
- Excavators
- Telehandlers
- Skidsteers
- Manlifts
- Trenchers
- Reachlifts

### Rig Heaters

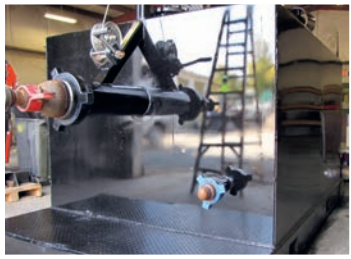

- Flameless and sparkless units
- Glycol units
- Diesel powered units
- Trailer mounted w/ safety controls
- 30 hr run time w/o refueling
- 550,000 -1.2 million BTU/hr

### Storage Solutions

- Shale bins
- Cutting bins
- Half rounds
- Slop tanks
- Catch tanks
- Trash bins
- Premix tanks

### Flare Stacks

- Propane or electric igniter
- Remote igniter and lighting system available
- Variety of volumes and capacities for all types of field conditions

### Godwin Pumps

- Flow rates up to 1010 USGPM
- 4" and 6"
- Auto prime to 28' of suction lift
- Auto or manual start/stop
- Trailer or skid mounted

### Generators & Compressor

- Generators of all sizes
- 3-600 CFM compressors

### Tank Farm Solutions

- Frac, floc, horizontal and upright tanks
- Steel and poly berm
- Crossover ramps
- Diesel/electric transfer pumps
- Manifolds
- Mud vacs
- Pressure washers/washdowns

## SiteSeal Applications

- Well Site Foundations
- Temporary Roadways
- Staging Areas
- Temporary Parking
- Aviation Mats
- Work Platforms
- Vegetation Protection
- Containment Pads
- Event Mats

Size: 8'x16'

## Why Choose Our Mats?

- Extremely durable
- Replaces aggregate base
- Low weight reduces trucking costs more than 50% compared to traditional mats
- Conforms to uneven terrains
- Creates a stable, dry work foundation
- Provides superior trip protection with our custom traction surface
- Reduces weather related delay
- Reduces amount and cost of site reclamation
- Fiber core is significantly more sustainable than plastic mats

# Roustabout Services

**Cleaning Services:** we have a fleet of cold and hot pressure washing systems for any size job. Our cleaning services include total site clean up, rig cleaning, tank cleaning and spill cleanup. Our cleaning procedures conform to local environmental regulations.

**Casing Preparation:** our crews will ensure that pipe handling is kept to a minimum at the floor by providing detailed and accurate casing preparation services such as cleaning and inspecting the threads, casing measurements, and drifting.

**Well Maintenance:** we can provide a wide variety of well maintenance services such as wellhead thawing, recoating, sandblasting, painting, valve greasing, repairs and general maintenance services.

**General:** we can provide general labor, trucking, equipment operation, mechanic services, inventory, rig services, containment and everything in between.

"Diamond T has a diverse skillset from the rental/service basic through highly technical equipment to skilled and unskilled labor to full engagement of delivering critical path project goals. I have found no limit to what they are willing to take on, source, or partner with to fulfill client needs."
